# Information For Teachers – Other Considerations

3. To facilitate subsequent follow up by school and MOE HQ, **schools are requested to verify and update the contact numbers** of graduating cohort who are present on the Day of Release of N-Level Results and reflect the updates in the School Cockpit by **31 Dec 2020**.
4. Although clear instructions have been provided for the JIE enrolment process, our N(A) and N(T) students may still require guidance to navigate the application system. We **strongly encourage** schools to allocate computer labs and direct students to these labs, and have teachers on standby to guide them through the main application process.
  - During the appeal/top-up phases, schools should assess if there is a need to open up the computer labs for students who may require additional support in accepting the counter-offer and/or submitting an appeal.

# Key Pointers for Students on ITE's Joint Intake Exercise (JIE) for Admission to Nitec Courses

All N(T) students and N(A) students (who are not progressing to 5N(A) or repeating 4N(A)) are eligible for JIE.

Keen competition for *Nitec* courses, so use all 12 choices wisely!

Participation in Main Phase is key to secure a place in ITE!

If you are keen in the work & learn option, you may consider applying for the ITE Traineeship programme. Do apply in the Main Phase to avoid missing a place in ITE!

If you are unsuccessful in EAE, make sure you apply in Main Phase to avoid missing a place!

If you have received an additional letter, then you are eligible for the 3-year *Nitec* Programme (eNFP).

If you are eligible for eNFP, make sure you apply for the 2-year *Nitec* Programme (eNFP) first before applying for eNFP!

The eNFP helps to build the necessary literacy and numeracy foundations that will enable you to successfully complete your *Nitec* course!

If you are counter-offered a course, accept it first before appealing to another course you may be more interested in!
